

Symo GEN24

Fronius Symo GEN24
& GEN24 Plus 3.0 - 10.0 kW

Product advantages

01 Backup Power for Every Situation

A reliable energy supply: The Fronius GEN24 offers just that with an integrated basic backup power function, the PV Point. With the Fronius GEN24 Plus, you can choose between the PV Point and the Full Backup option*, which provides backup power for the entire home.

02 Built-in Freedom

The Fronius GEN24 and Fronius GEN24 Plus have open interfaces. This makes it easy to integrate components from Fronius or third-party suppliers for a tailor-made photovoltaic system.

03 Versatility as Standard

More functions. More control. More power. Thanks to the energy management functions of the Fronius GEN24 and Fronius GEN24 Plus, you continuously save time and money. What's more, the integrated active cooling extends the service life of the inverter, protecting your investment for many years to come.

04 Sustainably Future-proof

For those who don't want to decide right away: Thanks to the Fronius UP.storage** software upgrade, your device can be retrofitted with the Full Backup power supply at any time.

05 Maximum Independence

By combining the Fronius GEN24 Plus with a battery, you can get even more out of your photovoltaic system, even at night. Use more of your own electricity and become more independent of electricity providers and prices.

* The Full Backup power function is not available for the Fronius Symo GEN24 3.0-5.0 Plus.

** Available in the Fronius webshop in select countries.

2

The Fronius GEN24 is available in two versions:

- As an inverter: **Fronius GEN24**
integrated backup power function
- As a hybrid inverter: **Fronius GEN24 Plus**
battery connection
two backup power options

Impressive power data

The Fronius GEN24 and GEN24 Plus impress with premium efficiency and maximum power at high temperatures.

⁶ You can find the current certificates under www.fronius.com/symo-gen24-plus-cert

⁷ Full Backup power ist only available with GEN24 Plus.

One-stop-shop

Fronius now offers all the components for 24 hours of sun - a complete PV system from a single source. Electricity, heating, cooling, e-mobility – everything is possible with GEN24 Plus, even at night. The battery-enabled inverter is perfectly matched to the Fronius storage solution, Reserva, and makes you even more independent.

The Fronius storage solution

Make yourself independent and utilise solar energy around the clock. The Fronius Reserva is a high-voltage battery with DC coupling that guarantees particularly effective and efficient energy transfer. With capacities from 6.3 to 15.8 kWh, it adapts flexibly to your needs.

Backup power for every eventuality

With the Fronius Backup Controller & Backup Switch, you can switch to full backup power operation either automatically or manually. These cost-effective switching components can be installed in the control cabinet to save space and eliminate the need for additional hardware such as switch boxes.

Charge electric cars cost-effectively

With PV-optimised wallboxes such as the Fronius Wattpilot Flex, you can charge intelligently and flexibly. The Wattpilot Flex is available in two versions: The Home version is ideal for private households, while the Pro version, with a MID-compliant meter, enables precise kilowatt-hour billing – perfect for company cars.
